

TWISTER - ISRAEL

Review places and symbols of Israel

Construction:

- ⇒ Print out the spinner and 4 sets of circles (cities, foods, US/ Israel, Misc.).
- ⇒ With tape, attach the circles to a twister board (matching the colors). If you don't have a twister board, lay the colors out on the floor - each color in its own column.
- ⇒ Poke a hole in the black circle. Attach a paperfastener and paper clip to make a spinner.

Directions for playing:

1. All players stand around the edge of the Twister board.
2. The caller/spinner spins the spinner and calls out the body part (hand or foot) and the color that the arrow points to. Each player must then place that body part on a vacant circle in that color.
3. If another player's hand/foot is already on that color, s/he must move it to another vacant circle of the same color.
4. If all six circles of a color are already covered, the caller/spinner must spin again.
5. Once the players have their hands/feet on a space, each player should call out the picture(s) that is on his/her circle. Now the Spinner spins again.
6. Play continues this way until only one player is left standing/squatting.
7. The last player left standing/squatting is the winner.
